INTRODUCTION

We are pleased to provide the 2021 **Arkansas Blue Cross and Blue Shield Standard with Step Therapy and Tier 4 Specialty Formulary** as a useful reference and informational tool. The **Standard with Step Therapy and Tier 4 Specialty Formulary** can assist practitioners in selecting clinically appropriate and cost-effective products for their patients.

The drugs represented have been reviewed by a National Pharmacy and Therapeutics (P&T) Committee and are approved for inclusion. The **Standard with Step Therapy and Tier 4 Specialty Formulary** is reflective of current medical practice as of the date of review.

The information contained in this **Standard with Step Therapy and Tier 4 Specialty Formulary** and its appendices is provided solely for the convenience of medical providers. We do not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature. This **Standard with Step Therapy and Tier 4 Specialty Formulary** is not intended to be a substitute for the knowledge, expertise, skill and judgment of the medical provider in his or her choice of prescription drugs. All the information in the **Standard with Step Therapy and Tier 4 Specialty Formulary** is provided as a reference for drug therapy selection. Specific drug selection for an individual patient rests solely with the prescriber. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

We assume no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

National guidelines can be found on the National Guideline Clearinghouse site at <https://ahrq.gov/gam/>, on the websites listed under each therapeutic class and on the sites listed in the WEBSITES section of this publication.

PREFACE

The **Standard with Step Therapy and Tier 4 Specialty Formulary** is organized by sections. Each section is divided by therapeutic drug class primarily defined by mechanism of action. Products are listed by generic name with brand name for reference only. Unless exceptions are noted, generally all applicable dosage forms and strengths of the drug cited are included in the **Standard with Step Therapy and Tier 4 Specialty Formulary**. Generics should be considered the first line of prescribing.

Individual pharmacy benefit plans may impose restrictions or not reimburse some products. In addition, over-the-counter (OTC) products, with the exception of insulin and diabetes monitoring products, are usually not included in the pharmacy benefit. Pharmacy law requires a valid prescription for the purchase of needles and syringes in certain states. OTC products are listed for informational purposes. If covered in the pharmacy benefit, OTC products require a valid prescription.

Drugs represented in the **Standard with Step Therapy and Tier 4 Specialty Formulary** may have varying cost to the plan member. Prescription benefit plan may alter coverage of certain products or vary copay amounts based on the condition being treated. Generic medications typically are available at the lowest cost, brand-name medications on the **Standard with Step Therapy and Tier 4 Specialty Formulary** will generally cost more than generics, and brand-name medications not on the list will generally cost the most.

The tiered format places drugs into tiers or levels of cost sharing by the plan member in the following manner:

- Tier 1: Lowest plan member copayment: **All generic, non-specialty drugs**, including those on the **Standard with Step Therapy and Tier 4 Specialty Formulary**.
- Tier 2: Intermediate plan member copayment: Preferred brand-name products on the **Standard with Step Therapy and Tier 4 Specialty Formulary** selected for Tier 2.
- Tier 3: Higher plan member copayment: Products on the **Standard with Step Therapy and Tier 4 Specialty Formulary** not selected for Tier 2, and all non-specialty, non-preferred, brand-name products. In most cases, there will be reasonable alternatives in Tier 1 or Tier 2 for products found in this higher tier.
- Tier 4: Highest plan member copayment. Specialty products are at Tier 4.

PHARMACY AND THERAPEUTICS (P&T) COMMITTEE

The services of an independent National Pharmacy and Therapeutics Committee ("P&T Committee") are utilized to approve safe and clinically effective drug therapies. The P&T Committee is an external advisory body of clinical professionals from across the United States. The P&T Committee's voting members include physicians, pharmacists, a pharmacoeconomist and a medical ethicist, all of whom have a broad background of clinical and academic expertise regarding prescription drugs. Employees with significant clinical expertise are invited to meet with the P&T Committee, but no employee may vote on issues before the P&T Committee. Voting members of the P&T Committee must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

Arkansas Blue Cross will utilize the services of the independent National P&T Committee as well as internal pharmacy and medical advisory committees to direct formulary decisions as it relates to our benefit certificates and policies.

DRUG LIST PRODUCT DESCRIPTIONS

To assist in understanding which specific strengths and dosage forms are on the **Standard with Step Therapy and Tier 4 Specialty Formulary**, examples are noted below. The general principles shown in the examples can usually be extended to other entries in the book. Any exceptions are noted.

Products on the Standard with Step Therapy and Tier 4 Specialty Formulary include all strengths and dosage forms of the cited brand-name product.

cefixime

Suprax

Oral capsules, oral chewable tablets, oral suspension and all strengths of Suprax would be included in this listing.

When a strength or dosage form is specified, only the specified strength and dosage form is on the Standard with Step Therapy and Tier 4 Specialty Formulary. Other strengths/dosage forms of the reference product are not.

tizanidine tabs

Zanaflex

The tablets of Zanaflex are on the **Standard with Step Therapy and Tier 4 Specialty Formulary**. From this entry, the capsules cannot be assumed to be on the list unless there is a specific entry.

Extended-release and delayed-release products require their own entry.

sitagliptin/metformin

Janumet

The immediate-release product listing of Janumet alone would not include the extended-release product Janumet XR.

sitagliptin/metformin ext-rel

Janumet XR

A separate entry for Janumet XR confirms that the extended-release product is on the **Standard with Step Therapy and Tier 4 Specialty Formulary**.

Dosage forms on the Standard with Step Therapy and Tier 4 Specialty Formulary will be consistent with the category and use where listed.

nystatin

The above *nystatin* entry listed in the TOPICAL/DERMATOLOGY section is limited to the topical dosage forms. From this entry the oral formulations cannot be assumed to be on the list unless there is an entry for this product in the ANTI-INFECTIVES section of the **Standard with Step Therapy and Tier 4 Specialty Formulary**.

GENERIC SUBSTITUTION

Generic substitution is a pharmacy action whereby a generic version is dispensed rather than a prescribed brand-name product. Boldface type indicates generic availability. However, not all strengths or dosage forms of the generic name in boldface type may be generically available. In addition, boldface type may indicate that the brand name cited is a generic. Examples of the latter include Levoxyl and Trivora.

One way to reduce out-of-pocket cost is by requesting a generic drug. Generic drugs are usually priced lower than their brand-name equivalents. Prescription generic drugs are:

- Approved by the U.S. Food and Drug Administration for safety and effectiveness, and are manufactured under the same strict standards that apply to brand-name drugs.
- Tested in humans to assure the generic is absorbed into the bloodstream in a similar rate and extent compared to the brand-name drug. Generics may be different from the brand in size, color, and inactive ingredients, but this does not alter their effectiveness or ability to be absorbed just like the brand-name drug.
- Manufactured in the same strength and dosage form as the brand-name drugs.

When a generic drug is substituted for a brand-name drug, you can expect the generic to produce the same clinical effect and safety profile as the brand-name drug. Brand-name drugs having a generic available may:

- Incur higher copayment (tier 3)
- Require payment of the difference in price between generic and brand, in addition to copayment
- Require mandatory generic dispensing

LEGEND

†	Coverage determined under the Medical Benefit
OTC	Over the Counter
PA	Prior Authorization
QL	Quantity Limit
SGM	Specialty Guideline Management
ST	Step Therapy
boldface	Indicates generic availability; boldface may not apply to every strength or dosage form under the listed generic name
delayed-rel	Delayed-release (also known as enteric-coated), refer to the reference brand listed for clarification
ext-rel	Extended-release (also known as sustained-release), refer to the reference brand listed for clarification

ANALGESICS

Practice guidelines of pain management are available at:
<https://www.asahq.org>

COX-2 INHIBITORS

	celecoxib	Tier 1
--	------------------	--------

GOUT

	allopurinol	Tier 1
	colchicine tabs	Tier 1
	probenecid	Tier 1

NSAIDs

	diclofenac sodium delayed-rel	Tier 1
	diflunisal	Tier 1
	ibuprofen	Tier 1
	meloxicam tablet	Tier 1
	nabumetone	Tier 1
	naproxen sodium tabs	Tier 1
	naproxen tabs	Tier 1
	oxaprozin	Tier 1
	sulindac	Tier 1

NSAIDs, COMBINATIONS

	diclofenac sodium delayed-rel/misoprostol	Tier 1
--	--	--------

NSAIDs, TOPICAL

PA	diclofenac sodium gel 1%	Tier 1
	diclofenac sodium soln	Tier 1

OPIOID ANALGESICS

Practice Guidelines for Cancer Pain Management (includes WHO analgesic ladder) are available at:
<https://www.asahq.org>
<https://www.nccn.org>

Opioid guidelines in the management of chronic non-malignant pain are available at:
<https://www.asipp.org/ASIPP-Guidelines.html>

QL	buprenorphine transdermal	Tier 1
QL	codeine/acetaminophen	Tier 1
QL	fentanyl transdermal	Tier 1
PA	fentanyl transmucosal lozenge	Tier 1
QL	hydrocodone ext-rel	Tier 1
QL	hydrocodone/acetaminophen	Tier 1
QL	hydromorphone	Tier 1
QL	hydromorphone ext-rel	Tier 1
QL	methadone	Tier 1
QL	morphine	Tier 1
QL	morphine ext-rel	Tier 1
QL	morphine supp	Tier 1
QL	oxycodone caps 5 mg	Tier 1
QL	oxycodone concentrate 20 mg/mL	Tier 1
QL	oxycodone soln 5 mg/5 mL	Tier 1

Tier 1 - Generics, Tier 2 - Preferred Brands, Tier 3 - Non-Preferred Brands

boldface - indicates generic availability; boldface may not apply to every strength or dosage form under the listed generic name

† - Coverage determined under the Medical Benefit, **OTC** - Over the Counter, **PA** - Prior Authorization, **QL** - Quantity Limit

SGM - Specialty Guideline Management (*may require additional copay and/or **PA**), **ST** - Step Therapy

QL	oxycodone tabs 5 mg, 15 mg, 30 mg	Tier 1
QL	oxycodone/acetaminophen 5/325	Tier 1
QL, *	tramadol	Tier 1
QL	tramadol ext-rel tablet	Tier 1
QL	buprenorphine	Tier 2 BELBUCA
PA	fentanyl sublingual spray	Tier 2 SUBSYS
QL	oxycodone ext-rel	Tier 2 XTAMPZA ER
QL	tapentadol	Tier 2 NUCYNTA
QL	tapentadol ext-rel	Tier 2 NUCYNTA ER

* Listing does not include NDC 52817019610. Drug products are identified by unique numerical product identifiers, called National Drug Codes (NDC), which identify the manufacturer, strength, dosage form, formulation and package size.

ANTI-INFECTIVES

Practice guidelines and statements developed and endorsed by the Infectious Diseases Society of America are available at: <https://www.idsociety.org>

Hepatitis: CDC recommendations on the treatment of hepatitis are available at: <https://www.cdc.gov/hepatitis/Resources/>

Guidelines for the management of chronic hepatitis by the American Association for the Study of Liver Disease are available at: <https://www.aasld.org>

HIV/AIDS: Guidelines for the treatment of HIV patients by the U.S. Department of Health and Human Services are available at: <https://www.aidsinfo.nih.gov>

Infective Endocarditis: American Heart Association recommendations for the prevention of bacterial endocarditis are available at: <https://professional.heart.org>

Influenza: Recommendations of the Advisory Committee on Immunization Practices are available at: <https://www.cdc.gov/vaccines/hcp/acip-recs/vacc-specific/flu.html>

International Travel: CDC recommendations for international travel are available at: <https://wwwnc.cdc.gov/travel>

Respiratory Tract Infection/Antibiotic Use/Community Acquired Pneumonia/Other: Principles of appropriate antibiotic use for treatment of nonspecific upper respiratory tract infection in adults are available at: <https://www.cdc.gov/pneumonia/management-prevention-guidelines.html>

Sexually Transmitted Diseases: CDC Sexually Transmitted Diseases Guidelines are available at: <https://www.cdc.gov/std/treatment/default.htm>

ANTIBACTERIALS

Cephalosporins

First Generation

cefadroxil	Tier 1
cephalexin	Tier 3 KEFLEX

Second Generation

cefprozil	Tier 1
cefuroxime axetil	Tier 1

Tier 1 - Generics, Tier 2 – Preferred Brands, Tier 3 – Non-Preferred Brands

boldface - indicates generic availability; boldface may not apply to every strength or dosage form under the listed generic name

† - Coverage determined under the Medical Benefit, **OTC** – Over the Counter, **PA** – Prior Authorization, **QL** – Quantity Limit

SGM – Specialty Guideline Management (*may require additional copay and/or **PA**), **ST** – Step Therapy

Third Generation

	cefdinir	Tier 1
	cefixime	Tier 2 SUPRAX

Erythromycins/Macrolides

	clarithromycin	Tier 1
	clarithromycin ext-rel	Tier 1
	erythromycin delayed-rel	Tier 1
	erythromycin ethylsuccinate	Tier 1
	erythromycin stearate	Tier 1
ST, QL	fidaxomicin	Tier 2 DIFICID
	azithromycin	Tier 3 ZITHROMAX

Fluoroquinolones

	levofloxacin	Tier 1
	moxifloxacin	Tier 1
	ciprofloxacin	Tier 3 CIPRO

Penicillins

	amoxicillin	Tier 1
	amoxicillin/clavulanate ext-rel	Tier 1
	ampicillin	Tier 1
	dicloxacillin	Tier 1
	penicillin VK	Tier 1
	amoxicillin/clavulanate	Tier 3 AUGMENTIN

Tetracyclines

	doxycycline hyclate 20 mg	Tier 1
	minocycline	Tier 1
	tetracycline	Tier 1
PA	doxycycline hyclate	Tier 3 VIBRAMYCIN

ANTIFUNGALS

	clotrimazole troches	Tier 1
	griseofulvin ultramicrosize	Tier 1
PA	itraconazole	Tier 1
	nystatin	Tier 1
	terbinafine tabs	Tier 1
PA	voriconazole	Tier 2 VFEND
	fluconazole	Tier 3 DIFLUCAN

ANTIMALARIALS

	chloroquine	Tier 1
	mefloquine	Tier 1
	atovaquone/proguanil	Tier 2 MALARONE

ANTIRETROVIRAL AGENTS

Antiretroviral Combinations

QL	efavirenz/emtricitabine/tenofovir disoproxil fumarate	Tier 1
QL	efavirenz/lamivudine/tenofovir disoproxil fumarate	Tier 1
QL	emtricitabine/tenofovir disoproxil fumarate	Tier 1
QL	lamivudine/zidovudine	Tier 1
QL	abacavir/dolutegravir/lamivudine	Tier 2 TRIUMEQ

Tier 1 - Generics, Tier 2 - Preferred Brands, Tier 3 - Non-Preferred Brands

boldface - indicates generic availability; boldface may not apply to every strength or dosage form under the listed generic name

† - Coverage determined under the Medical Benefit, **OTC** - Over the Counter, **PA** - Prior Authorization, **QL** - Quantity Limit

SGM - Specialty Guideline Management (*may require additional copay and/or **PA**), **ST** - Step Therapy

QL	atazanavir/cobicistat	Tier 2	EVOTAZ
